TARJIN RAHMAN

SENIOR PRODUCT MANAGER | CONSUMER EXPERIENCE • AI-ASSISTED PRODUCT BUILDING

Halifax, Nova Scotia • 902-478-8753 • tarjin@gmail.com • LinkedIn • Data Sculptor
Canadian citizen | Eligible to work in Canada | Available for remote work across Canada

PRODUCT LEADERSHIP PROFILE

Senior product and user-experience professional with 20+ years connecting consumer needs, research evidence, design, technical teams, and business priorities. Owned the product definition of ACDSee Pro for Mac v1, helped redesign ACDSee Pro 3, and shipped a privacy-first browser application. Combines user-research experience at Adobe and Microsoft with eight years of rigorous operational analytics and current hands-on AI-assisted product discovery, specification, prototyping, and validation. Skilled at shaping roadmaps, explaining trade-offs, and driving cross-functional decisions.

SELECTED PRODUCT EVIDENCE

Consumer product ownership: ACDSee Pro for Mac v1; ACDSee Pro 3 user-interface redesign and metadata-based Quick Search.

Research and scale: 10,000+ participant public product beta; user research for Acrobat/Reader, Visio, and SharePoint Search.

AI-enabled building: Released CloakYourSecrets.com; specified 400+ testable requirements for Data Sculptor WebAssembly work.

CORE STRENGTHS

Product strategy and roadmaps • Consumer experience and UX research • User interviews and usability testing • Prototyping and experimental design • Product requirements and prioritization • AI-assisted discovery and QA • Cross-functional delivery • SQL and data analysis • Agile / Scrum • Product launches and release readiness

PROFESSIONAL EXPERIENCE

Founder & Product Lead | Red5Sorcery Books & Media — Feb 2025 – Present

- Own discovery, product direction, backlog, and release planning for Data Sculptor, a local-first browser data workbench; translate user problems into practical experiences, features, and delivery decisions.
- Use specialized AI collaborators for research, requirements, prototyping, technical review, and QA; structure evidence-based decision-making and retain human accountability for acceptance.
- Specified 400+ testable requirements for a WebAssembly workstream, with structured review, traceability, validation, and clear implementation boundaries.
- Conceived and shipped CloakYourSecrets.com, an offline Rust/WebAssembly browser privacy application, from problem definition through testing, documentation, and release.

Research & Statistics Officer | Nova Scotia Department of Justice — Jun 2018 – Oct 2026

- Turned policy and operational questions into defensible insights and executive-facing reporting from large Oracle-based justice data; investigated data definitions, relational structures, and limitations.
- Validated Statistics Canada police-reported crime findings against provincial systems, reconciled discrepancies, and explained evidence and trade-offs to stakeholders.
- Produced analytical and public-facing information products; maintained 20+ open datasets and supported privacy-sensitive media and information requests.

Product Analyst | Medusa Medical Technologies — Nov 2013 – Jun 2017

- Led requirements for Siren electronic patient-care reporting, connecting customer and clinician workflows with NEMSIS v3 standards, technical constraints, and product decisions.
- Worked with operational specialists and engineering to resolve competing needs and validate behavior against relational data structures and real production data.

Product Manager | Radialpoint SafeCare — Jan 2013 – May 2013

- Helped establish Scrum roles, backlog planning, product requirements routines, and cross-functional delivery practices for a new product team.

Product Manager / Product Owner | ACD Systems International — Apr 2008 – Sep 2012

- Owned product definition and workflow design for ACDSee Pro for Mac v1, synthesizing research, user feedback, technical constraints, and business priorities into roadmap and release choices.
- Helped lead a workflow-centered redesign of ACDSee Pro 3; designed metadata-based Quick Search and communicated alternatives through prototypes and user findings.
- Helped run a public beta of 10,000+ users, using customer feedback and reproducible defects to prioritize fixes and support release-readiness decisions.

User Research Analyst / Specialist | Adobe Systems — Feb 2005 – Mar 2008

- Generated customer, workflow, and product recommendations from research on Acrobat/Reader 8 and early Acrobat 9; coordinated external studies and shared findings with product partners.
- Prototyped and usability-tested an Adobe–Google Toolbar concept to inform a time-sensitive product partnership decision.

Design Researcher / Usability Engineer | Microsoft — Oct 2001 – Jan 2005

- Researched Office Visio 2003 and SharePoint Portal Server Search, My Sites, and List Management, turning user evidence into actionable experience and workflow recommendations.

EDUCATION & PROFESSIONAL CERTIFICATION

MLIS — McGill University • **MA, Human Development & Applied Psychology** (HCI / applied cognitive science) — University of Toronto
BSc (Honours), Psychology; Mathematics minor — Dalhousie University • **Professional Scrum Master I (PSM I)** — Scrum.org, 2017

RESEARCH, ANALYTICAL METHODS & TOOLS

Usability testing • interviews • surveys • quantitative analysis • experimental design • prototypes • technical documentation. SQL, Oracle and Microsoft relational databases, Tableau, Excel / Power Query, Jira, Confluence. Peer-reviewed publications in Human Factors (1999), Information Processing & Management (2002), and the Journal of the American Society for Information Science and Technology (2002).
